Linear statistical models
The end

Yao-ban Chan

The exam

- ▶ The exam consists of 7 questions.
- ▶ The total number of marks is 90.
- ▶ It is 23 pages long.
- ▶ It is 3 hours long and has 30 minutes reading time and 30 minutes submission time.
- ▶ You will be allowed to use one double-sided handwritten sheet of A4 paper.
- ▶ You must bring a calculator, but only the Casio FX82 model.
- ▶ Don't forget student ID and pens. . . and your brain.

What to do in advance

- ▶ Well before the exam, you will be able to access a template file and the exam submission.
- ▶ Practice submitting a blank template to make sure you are familiar with the procedure (you can overwrite this later).
- ▶ Print out the template file and read the instructions.

The exam

The questions cover:

- ► Linear algebra (mostly theory);
- ► Multivariate distributions (mostly practical);
- ► The full rank model (theory);
- ► The full rank model (practical);
- ► The less than full rank model (theory);
- ► The less than full rank model (practical);
- ► Experimental design (mostly theory).

Notes sheet

What should you put on your notes sheet? Let's see. . .

This year's exam

Let's look at this year's exam...

Consultation hours

I will have consultation hours, but at different times:

- ▶ Tuesday June 1, 8, 15, 22, 11–12am;
- ▶ Thursday June 24, 11–12am.

There will also be other consultation times for Tingjin and the MSLC (check the LMS).

Any questions?
